

Marathon Patent Group Announces First Quarter Financial Results

Conference Call Scheduled Today at 4:30 p.m. Eastern Time

LOS ANGELES, CA -- (Marketwired) -- 05/15/17 -- Marathon Patent Group, Inc. (NASDAQ: MARA) ("Marathon" or "Company"), an IP licensing and commercialization company, today announced its operating results for the three months ended March 31, 2017, as published in its Quarterly Report on Form 10-Q filed today with the Securities and Exchange Commission.

Operating Results for the Quarter Ended March 31, 2017 / Subsequent Events

- Total revenue of \$78 thousand and \$2.1 million for the three months ended March 31, 2017 and March 31, 2016, respectively.
- Net operating loss was approximately \$2.8 million (including non-cash expenses) for the three months ended March 31, 2017 compared to a net operating loss of \$4.9 million for the three months ended March 31, 2016. The net operating loss includes non-cash operating expenses, which primarily relate to share based compensation and amortization and impairment of patents, in the amounts of \$0.7 million and \$3.0 million for the three months ended March 31, 2017 and March 31, 2016, respectively.
- Our GAAP net loss was \$(0.19) per basic and diluted share for the three months ended March 31, 2017, with 19,059,559 weighted average basic and diluted shares outstanding as of March 31, 2017, compared to a GAAP net loss of \$(0.26) per basic and diluted share for the three months ended March 31, 2016, with 14,967,141 weighted average basic and diluted shares outstanding as of March 31, 2016.
- On a per share basis, our Non-GAAP net loss was \$(0.13) per basic and diluted share for the three months ended March 31, 2017, compared to a Non-GAAP net loss of \$(0.16) per basic and diluted share for the three months ended March 31, 2016.
- Entered into agreement related to a payoff of the debt held by DBD Credit Funding, LLC.

Doug Croxall, Chief Executive Officer of Marathon, stated, "As expected, our first quarter was unsurprisingly light. While there were revenue opportunities, we remain unwilling to compromise what we believe to be reasonable licenses to try and impact a particular quarter. It's for that reason we've always advised that our financial performance should be evaluated on an annual basis, as opposed to quarterly.

Croxall added, "On Friday May 12, 2017, we filed a Form 8K with the SEC which represents the initial step in our debt restructuring plan. We entered into an agreement with DBD Credit

Funding, LLC, a subsidiary of Fortress Investment Group, under which we can pay them the principal owed of \$15,763,240 plus accrued interest on or before August 15, 2017. Upon payment of the note principal and interest obligation, DBD's ongoing entitlement to additional payments based upon revenues will be reduced to five (5%) percent of the gross revenues received from only the patent portfolios the Company currently owns or licenses. We are particularly pleased with the agreement and the amendment is expected to have no negative impact on our normal course of operations already being in line with our existing operating plan."
