Merrick Okamoto, Chief Executive Officer, stated, "While revenues remained relatively consistent with recent quarters, we are pleased to have recently consummated the purchase of 6,000 S-9 Bitmain 13.5 TH/s Bitcoin Antminers positioning us for what we expect to be sizeable growth in both top and bottom line results going forward.

The company began the installation of our 7,200 miners over the last two weeks. We anticipate the completion of the remaining miners over the next 6 to 8 weeks. Once the full deployment is completed, Marathon will have 7,200 miners in production and will increase our HashRate production level nearly seven-fold from 14 PH/s to approximately 100 PH/s, making us one of the largest publicly traded Bitcoin Mining companies in North America."

Okamoto added, "Importantly, we believe this recent acquisition should evidence compliance with Nasdaq stockholders' equity requirement for continued listing. We previously reported that on May 21, 2019, we received notice from the Nasdaq Capital Market that the Company had failed to maintain a minimum of \$2,500,000 in stockholders' equity for continued listing as required under Listing Rule 5550(b)(1) as its Form 10-Q for the period ended March 31, 2019 reported stockholders' equity of \$2,158,192. With this transaction, net shareholders' equity in the third quarter improved to \$3,489,345."
